

EXPERTS SAY MRS. BRADLEY WAS DEMENTED

AND UNABLE TO DISTINGUISH
BETWEEN RIGHT AND
WRONG.

WHEN SHE KILLED BROWN

Leading Alienist in Thaw Case
Makes Good Witness for De-
fendant at Washington.

Washington, Nov. 26.—The fight of the alienists upon the outcome of which will depend Mrs. Bradley's fate, was carried another step forward today. Dr. Britton D. Evans and Dr. Charles D. Will being called upon to reinforce the strong testimony given by Dr. Barton yesterday. At the same time the plan of the prosecution to make its strongest fight in the rebuttal is gradually being disclosed. The last witnesses called will give testimony as to Mrs. Bradley's threats to kill Brown in an attempt to show that the impression upon which the experts for the defense base their conclusions of insanity was not a complete or correct picture of Mrs. Bradley's mind.

It is now probable that the trial will not end until the eve of the anniversary of the shooting, December 8. The testimony to be given and the addresses to the jury will take up the greater part of next week. The address of Judge Powers for the defense will alone consume nearly a full day.

Mrs. Bradley and her attorneys entered into a consultation before court was in session today, over the introduction of a new witness heralded as a surprise for the prosecution.

Dr. Isaac Rich, the "surprise" witness, testified to seeing Mrs. Bradley in the writing room at the Raleigh shortly before the shooting.

"Her actions attracted my attention," he said. "She laughed to herself, her eyes were bulging and dilated and she appeared stupid. I thought she was a sort of lunatic."

"The person described in the hypothetical question was insane," said Dr. Chas. Hill, alienist for the defense. "She was unable to distinguish right from wrong."

The cross examination did not shatter the testimony of the doctors. "She was insane," asserted Dr. Britton D. Evans, chief expert in the Thaw trial. Of the shooting itself he said, "Taking in view the circumstances preceding, and the intensity of the shock, nothing but a divine interposition could have prevented the dejection of reason." He was not cross examined.

MRS. BRADLEY RESTS HER CASE
Washington, Nov. 26.—Max Brown, a son of Senator Brown, was the first witness called in rebuttal by the prosecution, the defense having rested at 4:45 p. m.

Before the defense rested Mrs. Bradley was recalled to the stand to answer questions regarding her previous testimony. Nothing important developed.

AN OPEN SWITCH NEARLY WRECKED TAFT'S SPECIAL

Krasnoyarsk, Siberia, Nov. 26.—It was learned yesterday that the train upon Secretary Taft and his party are traveling over the Trans-Siberian railroad from Vladivostok to Moscow had a narrow escape from being wrecked at Chita.

A switch in front of the Taft train became open, when it should have been shut, but an employee discovered this circumstance one minute before the train came along, closed the switch and kept it on the proper rails.

Had the train been thrown on to the siding it would have crashed into a number of freight cars.

The democratic bearing of Secretary Taft and other members of the American party has created a favorable impression upon the other passengers on the trans-continental train.

At the conclusion of a formal dinner given on the train in honor of Secretary Taft, Captain Rindenko, on behalf of the passengers, made a short address in which he spoke appreciatively of the secretary's courtesy and kindness and wished him a safe journey. Mr. Taft made an appropriate reply.

BRYAN WILL LAUNCH BOOM FOR PRESIDENT

Washington, Nov. 26.—Wm. Jennings Bryan has been undergoing one of the most trying experiences of his life. For four days he has been lecturing in Washington and making addresses before the Y. M. C. A. convention, without once mentioning politics. Tonight he will lift the lid. The occasion will be the formal launching of his presidential boom at a banquet of the United Democracy of the District of Columbia.

BRYAN'S FRIEND TO OPPOSE TAGGART

Indianapolis, Nov. 26.—John W. Kern, Bryan's closest friend in Indiana, will oppose Taggart for the position as national committeeman.

RELIGIOUS FANATICS NEARLY SURROUND FRENCH TROOPS BUT ARE REPULSED WITH MOST SANGUINARY RESULTS

Maghnia, Algeria, Nov. 26.—Ten thousand of the fiercest Benis Nassen tribesmen swooped down on the French camp Sunday and were beaten off with a loss of 1,200 killed. The fighting continued for a long time, and was conducted on the part of the tribesmen apparently with total disregard for their lives.

At one time the French infantry was in danger of being surrounded, but they finally disengaged themselves from their perilous position by a most brilliant charge of the Spahis. The route of the Arabs was completed by vigorously shelling by the artillery.

The French loss was eight killed.

Monday's Advocate briefly told of the murder of Edward Jefferson, a former Thornville grocer, who was strangled and thrown before a flying train at Burlington N. J. Mr. Jefferson, an uncle of Mrs. Frank A. Chase of this city, was a nephew of Benj. and John Jefferson, formerly of Newark, and was well known in both Licking and Perry counties.

A dispatch from Burlington says that terror reigns in that city where two more men are dead and the state militia may be called out to protect the Polish quarters of the city as a result of the murder and robbery of the wealthy grocer.

A few minutes before midnight Saturday Patrolman George Gussang shadowed three Poles whom he suspected of complicity in the murder of Jefferson, was shot through the heart and killed instantly. One of the men he was trailing was killed by one of his own companions.

News of this murder, coming about the same hour of the night as Jefferson's, spread through the city quickly, and it was not more than half an hour before the streets were crowded with men and boys armed with revolvers, shotguns, Winchester and even old muskets. Everybody was yelling at the highest pitch of his voice, women were screaming and the whole town, which a few minutes before had been sleeping was in an uproar.

When it became known that the men who had murdered the policeman were Poles, there was an immediate movement towards the city's Polish quarter, and the cry, "Kill the Poles," soon brought a mob of several hundred men. The mayor has asked for a company of New Jersey National guard to assist in preserving order.

The police through all New Jersey are searching for a man who leaped from a speeding train on the elevated section of the Pennsylvania railroad in Camden at 1 o'clock Saturday morning, believing that if they caught him they would have the murderer of Edward Jefferson.

"Find this man and I believe we will have made a long step toward accounting for the murder of Edward S. Jefferson," said Magistrate Charles P. Smith, who is directing the quest for the slayers.

In addition to the offices of national bank examiner, Senator Kittredge drew the following offices: Assayer of the mint at Deadwood, registers at Mitchell, Rapid City, Pierre and Huron; receivers at Mitchell and Chamberlain; Indian agents at Crow Creek agency and at Little Bighorn and Lower Brule agency.

The result of the lottery will be that the President will be guided by it in designating the officers to fill the vacancies. Senator Kittredge recommending for the offices which he drew and Senator Gamble for the others.

The agreement was hastily made and being only in the matter of nomination, each senator reserving the right to oppose the confirmation of a person nominated at the instance of the other.

TROOPS SWARM LISBON'S STREETS

Lisbon, Nov. 26.—With troops swarming in the streets, and most of the leaders of the anti-government factions in prison, King Carlos temporarily has restored a semblance of order. Premier Franco, who is fighting the king's battle, is finding the chief source of his strength in the dissensions among his enemies. On group insists on a republic, a second wants to put Crown Prince Luiz Philippe on the throne, and a third supports Don Miguel, the pretender. Should the dissenters agree, Carlos could not long hold his ground.

MASTER'S DOG WAS RETRIEVER

And When a Stick of Dynamite was Thrown Into Pond he Brought It Back.

Marysville, Miss., Nov. 26.—James Swain, a prominent citizen of this community, had a mad race from death this week. He went to the levee to dynamite a pond for some fish, and, throwing the stick in, was horrified to see his favorite bird dog dash in and grab the lighted package, and swim toward the bank. Swain and taught the dog to bring him things and water fowl, and realized at once that he would bring the explosive and lay it at his feet.

Swain made a break for safety, the dog playfully cumbering after him. Nearer and nearer came the carrier and closer and closer burned the fuse. Swain's hair literally stood on end and his face was a picture of terror. However, the dog stopped to adjust the burden in its mouth and Swain gained a few yards before the day would regain its smile, the dynamite exploded and blew it to atoms.

UTTER DISREGARD FOR HUMAN LIFE WAS DISPLAYED

BY THE DUPONT POWDER COMPANY AT ITS FONTANET PLANT.

SAYS CORONER'S VERDICT

As a Result of the Terrible Explosion in October Costing Lives of 27 Victims.

Terre Haute, Ind., Nov. 26.—"The investigation shows that the factory was operated with utter lack of regard for human life," says Coroner R. L. Leavitt, in the first sentence of his verdict on the explosion of the powder mill at Fontanet, October 15, by which 27 persons were killed, 150 injured, and 275 houses destroyed or damaged. The coroner says the first of the series of explosions, the last of which was the dynamite magazine 50 minutes later, was in the house where powder was glazed, and was caused by defective machinery. The testimony brought out the fact that no one was present, although the machinery had been giving trouble. The coroner finds that the DuPont company, which is the name under which this factory of the powder trust was operated, for economy's sake had used only small acreage for the buildings, and thereby greatly increased the danger.

"The company had evidence in the explosion of a press mill last January," reads the verdict, "that it could be carried to the units of the factory, but in the face of such evidence the company was constructing another mill half the distance away. A house in which kegs were made, and in which two men were killed, should have been located beyond the danger zone. Power was transmitted by dynamos and wires which made it unnecessary to have some of the buildings in the danger zone. The office was located almost directly in front of the powder magazine, 150 feet away. This is the place in which people transacted business with the company, and one of two men killed in the office was there on business. The entire plant was located on .50 acres, but the company owned 30 more acres which could have been used for parts of the plant which contained no explosives."

The coroner recommended that the legislature pass laws to prevent such building of buildings at powder mills. He found that 40,000 kegs of 25 pounds of powder each were in the powder magazine, and 30,000 pounds of dynamite in the dynamite magazine.

And Refuses to Resign at the Request of the Head of the Public Schools.

Dayton, O., Nov. 26.—Senator Wm. H. Meck, teacher in the Steele High school, announced Monday afternoon, when he was informed that State School Commissioner Jones of Columbus, had sent him a letter requesting his resignation, that he would positively refuse to step out. He claims to have information of importance which he will present to the Senate when it meets in the hope of securing reform legislation.

In his letter the school commissioner states that his action was taken on Senator Meck's failure to appear at the hearing on the date designated, and on the fact that the charges he made in his address before the Central Ohio Teachers' Association, that there was trafficking in state certificates, were not substantiated.

To release this money is discontinuing American Commercial paper endorsed in every case by at least two French financial concerns.

HAS COME HOME
"Johnny" Taylor, a member of the crack Winchester gun team arrived home from Jacksonville, Fla., Tuesday afternoon, having been with the Winchester squad since November 11 smashing records in various parts of the country. The team is composed of five of the best shots in the United States and started in at Baltimore, Md., going from there to the Jamestown Exposition, at Columbia, S. In the shoot at Leesburg Mr. Taylor made 198 out of 200, and made a straight run of 168. Continuing the next day he brought the straight run up to 211, which certainly is remarkable shooting. Mr. Taylor is one of the best shots in the world today, and as a usual thing he always leads in the team work. He left Jacksonville, Fla., Sunday night, in company with Crosby, another team member, the latter proceeding to his home in Illinois, while the other three members will close with a match this week at Nashville, Tenn.

\$10,000 Damage Suit.
Frederick Martin, by his attorneys, Smythe & Jones, has filed his petition in the Common Pleas court against the Ohio Bottle company, the E. H. Everett company, the American Bottle company and Edward H. Everett, in which he alleges that on the 16th day of November, 1907, the defendants were the owners of and operated a stone quarry near Black Hand in Licking county, and were there engaged in getting out stone and grinding the same into sand; that at the time plaintiff was an employee of the defendants as a laborer, working in the quarry; that on the day mentioned rocks and stone caved in and fell on him, striking him on the head, severely injuring him. He says his injuries are permanent and that he has sustained damage in the sum of \$10,000, for which he asks judgment on October 9, 1907. Plaintiff says that the quarry and overhanging rock and stone were left in a dangerous condition by defendants, notwithstanding that they had full knowledge that the men were working beneath were liable to be crushed and killed.

RETIRE BUSINESS MAN FAVORS NEW THEORY
E. H. Lambert, of Everett, Massachusetts, Believes Stomach the Seat of Life.
One of the most interesting statements made recently concerning the much discussed Cooper theory, that has spread over the country during the past year, is made by E. H. Lambert, a retired business man, whose home is at 115 Francis Street, Everett, Mass. Mr. Lambert has this to say in connection with Cooper and his medicine: "Some time ago I read an article about this man Cooper, in which he claimed that stomach trouble was directly responsible for most ill health. He went on to say that, although his medicine did nothing but get the stomach in sound condition, it would, in many cases, remove kidney and liver trouble and various other ailments. He argued from this that the stomach was the main cause of sickness, and stated that the success he has had with his medicines was due entirely to this fact.
"I am now fully convinced that this theory is correct, and believe Cooper has a really remarkable medicine, judging from my own experience.
"I have been a sick man for five

years. Three years ago I was told by a physician that I had Bright's disease of the kidneys. I have treated constantly for this trouble since, without results. After reading the article I have mentioned, I purchased some of this man Cooper's medicine. I have been astounded by what it has done for me. I was relieved to some extent within 24 hours. Today my health is better than for five years, and so far as I can tell, my kidney trouble has disappeared.
" My wife, who had stomach trouble for some time, tried the preparation after noting its action in my case, and her improvement is fully as marked as mine. She now eats heartily three times a day without any distress whatsoever. Her nervousness has also left her. I certainly believe this man's success is fully justified, as he undoubtedly has a wonderful medicine."
We will gladly describe the remarkable record made by the Cooper medicines to all who wish to know of them.

YEARS OF SUFFERING THEN ROBUST HEALTH.
Great Remedy Cured Skin Disease of Long Standing.
Mr. J. Weber, of 1665 Vine street, San Jose, Cal., writes an interesting story of terrible skin suffering which ended in robust health when he found a remedy which cured him like magic. Here is Mr. Weber's own story:
"In July, 1900, my face began to be affected with a terrible skin disease. I went to a doctor, and he told me that I had been poisoned and he wanted to operate on me. I refused to let him do so, and after a few months my face was an awful sight. You could see that it was diseased to the bone. Some people claimed that I had cancer. Great boils would appear, increasing in size and pain, and I was unable to do my work. I began to doctor again but no one could help me; large pimples and boils would continue to come. At that time I had as many as ten on my face. I was such a terrible sight that my friends could not bear to see me. I doctored for five years until my funds gave out and I had to stop. During this time I tried over 300 remedies.
"One day I happened to hear of D. D. Prescription and learned that it had cured several bad cases of eczema. I purchased a bottle and then I got a second bottle. The use of five bottles cured me. It has been eight months now and the disease has not returned. My friends ask what it was that cured me of the awful skin trouble and I answer that it was D. D. D. which healed me."
We know that every word of the above letter is absolutely true. We keep D. D. D. Prescription, the great remedy for eczema, psoriasis, salt rheum, dandruff, etc., because all the cures it has made appear to be lasting. Come in and talk to us about this remedy.

THIRD TERM HISTORY.

A third term episode of a former time cannot be without present interest. At the beginning of the Forty-fourth Congress, near the close of President Grant's second term, when many believed a third term was threatened, Representative Springer, Democrat, of Illinois, introduced a resolution in the House on the subject. The resolution declared as the sense of the House that the two-term precedents set by Washington and his successors in regard to the Presidential office should be jealously maintained, and that a departure from it would be "unwise, unfortunate and a menace to our free institutions." The resolution was considered without debate on December 15, 1875, and passed by 233 affirmative votes against 18 in the negative. Among the negatives was Speaker Blaine, who later was a more or less determined opponent of the third term in 1880, when Senator Conkling mustered his "306" for Grant in the Republican National Convention. Another negative vote was that of Joseph C. Cannon, who is hardly a third term man just at this juncture.

It is not likely that a resolution of this kind would meet with much favor in the coming Congress. In the Fifty-ninth the Republicans will not risk a quarrel with the occupant of the White House lest he should be nominated in spite of all precedent to the contrary.

WHEAT IS 90 CENTS AND CORN 50 TO 55

An Advocate representative dropped into the warehouse of Tenney & Morgan Tuesday and was informed that they were paying 90 cents for wheat, 50 cents for oats and from 50 to 55 cents for corn. The local wheat market has not been overburdened, owing to the decline in price. Corn is rather wet and heavy and not in a condition to move although the dealers are anticipating a strong movement about the first of the year. Good timothy hay is bringing \$12 per ton and only a fair amount is being hauled. There has been a gradual decline in price due to the rice

Married Women
Every woman covets a shapely, pretty figure, and many of them deplore the loss of their girlish forms after marriage. The bearing of children is often destructive to the mother's shapeliness. All of this can be avoided, however, by the use of Mother's Friend before baby comes, as this great liniment always prepares the body for the strain upon it, and preserves the symmetry of her form. Mother's Friend overcomes all the danger of child-birth, and carries the expectant mother safely through this critical period without pain. It is woman's greatest blessing. Thousands gratefully tell of the benefit and relief derived from the use of this wonderful remedy. Sold by all druggists at \$1.00 per bottle. HEISEY COMPANY
DRILL A GUSHER
NEAR GRANVILLE

Granville, Nov. 26.—One of the latest gas wells ever drilled in this part of the gas territory, was drilled in by the Heisey company of Newark, on the Burr Everett farm, less than one mile west of Granville on Sunday night. When the drill penetrated the gas bearing sand the gas escaped with a roar that could be heard for several miles. Experts say that the well is good for from 5,000,000 to 10,000,000 feet of gas per day. It now looks like there is gas and plenty of it right here in Granville, and that all that is needed is to bore for it. It is said that other wells will be put down in this vicinity as soon as the machinery can be got on the ground. The Heisey company has been getting some good wells in Union township and is gradually working eastward.

WILL IMPROVE
NEWARK SHOPS

WHICH MAY BE A FORERUNNER OF BETTER THINGS TO BE

Newark Railroad Detective Helping to Trace Stomies of Train—Railroad News.

Some new improvements are being contemplated by the Baltimore and Ohio Railroad company at this point, among which will be the repairing of the old machine shop building. It is understood that Contractor P. S. Phillips is now engaged in figuring on this job. The gables of the old structure, which stands just east of the round house, are in bad shape and in consequence the roof of the building has been weakened. A new roof will be placed on the building.

Reduced Holiday Rates.
Newark people who wish to do some traveling during the holidays will be able to move at slightly reduced rates. Since the inauguration of the two cent fare Newark people have been unable to secure any sort of a holiday rate as in previous years, the railroad companies figuring that the present rate is about the same as the old reduced holiday fare. At the Central Passenger Association meeting last week, it was decided to make a slight concession to holiday travelers. This reduction will be in the shape of a flat two cent rate throughout the Central Association's territory.

People traveling from one state to another will be able to secure the same rate, as later, when the railroads expect to adjust their rates in accordance with the recent legislation in several states. It was intended to adjust the new scale at last week's meeting, but the matter is somewhat complicated in Pennsylvania, where its constitutionality is being tested in the Supreme courts.

New Depot at Mt. Vernon Completed.
B. & O. passenger train No. 7, northbound was the first train to stop at the New B. & O. station Monday morning at 8:30 o'clock. As the passenger had not been moved the train drew up at the old station to take water, and many of the passengers alighted at the old station. After train No. 14 left the station Monday morning the ticket racks and other office furniture were moved into the new station. The new building is a very handsome one and also very convenient. One of the most striking advantages is that a passenger can purchase a ticket and have his baggage checked without going outside the station. The station is equipped with all modern conveniences. It is heated with steam and lighted with electricity.—Mt. Vernon Banner.

PLAN RESTORATION OF OLD NATIONAL ROAD BY ORGANIZATION.

Two Deaths in One Family—Child Burns to Death—Turkey Caused a Quarrel.

Zanesville, Nov. 26.—The National Pike Improvement Association has been formed in this city. It is the intention of the association to form like organizations in Licking and every other county through which the pike passes, to merge them into state organizations, and finally to bring the matter before Congress and ask for aid in restoring this historic old road to its former excellent condition. Seventy-five years ago this road was constructed from Washington, D. C., to Springfield, Ill. Originally 100 feet in width, property encroachments along the route have resulted in its being narrowed to less than 50 feet in some places. The road has been allowed to drift to ruin and in some localities it is worse than a clay road. As an automobile road this route cannot be surpassed and if the work succeeds Ohio will have something to be proud of.

YOUNGSTOWN, AKRON AND OTHERS AGAIN DECIDE TO WITHDRAW FROM THE O. & P. LEAGUE

Youngstown, O., Nov. 26.—An informal meeting of the four eastern club owners of the O. P. League, Youngstown, Akron, Sharon and New Castle, was held in this city Sunday. The action of club representatives in the recent league meeting at Cleveland, who declared that they were through playing ball in the O. P. League as at present made up, was fully indorsed.

While plans for the future were discussed, nothing of a definite nature was decided upon, except that the interests represented would withdraw from baseball before the present organization would be allowed to stand.

ORPHIUM THEATER.
This week's show at the Orphium consists of an all star bunch, headed by Bennington and company, introducing singing, dancing and elaborate scenic and electrical effects. Mr. Bennington is touted as the man with the rubber face, his impersonations of Richard Carle in "The Mayor of Tokio," being excellent. The four ladies are good singers and dancers and the electrical effects are beautiful. Billy Moore the ebony comedian scored a tremendous hit with his parodies, jokes and most extraordinary soft shoe dancing. Billy is one of the hits of the show with his nig. tie. The Gladstone sisters, juvenile artists supreme, with their little song, "Cinderella," and their acrobatic and contortion stunts which are marvelous for children. Toppel and Kliment the musical artists, both gentlemen, are excellent musicians and lovers of music should not miss this treat.

The song, "Roll Around," sung by Ira Haines is accompanied by a beautiful set of slides and the moving pictures are good. Seats on sale all day at the box office, also for the Thanksgiving matinee.

Saving is a Safeguard Against Debt

"Nothing ahead" is just about the same as "dead broke." If you spend all of your income you are on the ragged edge of debt, worry, and forced economy all the time.

The pleasures one buys with money due the grocer lose all their zest. The man who is out of debt, and who has a surplus ahead, is the one who enjoys his rational indulgences to the utmost. The man who saves part of his income is insured against debt and can spend the remainder with a clear conscience.

We pay 4 per cent on Savings Accounts, compounded semi-annually.

REMARKABLE WAS TRIBUTE

PAID MEMORY OF THE LATE
DOCTOR WILLOUGHBY
MILLER

BY SCIENTISTS AT BERLIN

Dentists of Several Countries Will
Unite With Those of Germany
to Establish a Medal.

It is unusual whether there are more than a dozen people in this city who are aware of the fact that one of the most distinguished scientists of modern times was born and raised in Newark. They have heard that Newark furnished a Justice of the Supreme court of the United States in the person of Judge William B. Woods and that this city also furnished for a short time a Judge of the Supreme court of Ohio, but it will be a surprise to many to learn that Dr. Willoughby B. Miller, son of John H. Miller, deceased, whose home was on Granville street, this city, was one of the world's greatest scientific men of the century. The achievement which gave him a world wide reputation was the discovery and isolation of the microbe that produces the decay of the human teeth. It was almost pathetic that Prof. Miller was just preparing to relocate in this country and was building a home in Ann Arbor, Mich., where he was to be Dean in the greatest dental school in America at the time of his death. Of late years Prof. Miller has visited Newark quite frequently, having a sister living at Alexandria, and another sister, Mrs. A. G. Ashbrook, living in this city. The tribute which was paid him by the memorial service at the Berlin University will be appreciated by Prof. Miller's Newark friends, and will impress them how eminent was Prof. Miller in the estimation of the scientific world. The following dispatch tells of the honor paid to his memory:

Berlin, Nov. 25.—A memorial meeting was held at the Berlin University Sunday evening in honor of the late Willoughby Dayton Miller, the American dental surgeon, who had been a professor of the university for 22 years. A year ago he resigned to accept a position with the University of Michigan, but he died at the Newark (O.) hospital July 27 of this year of an operation before beginning his new duties.

Prof. Dieck, who succeeded Prof. Miller in the University of Berlin, delivered a memorial oration to a large assembly of German dentists who had been trained under Professor Miller. He announced that the dentists of Germany had established a Miller foundation in Berlin, and that the dentists of several countries had united to establish a Miller medal, which is to be conferred regularly in recognition of achievements in the promotion of dental science.

NO FATAL ACCIDENTS

Although the hunting season has been under way for over a week now, no fatal accidents have as yet been reported in Licking county, although several minor accidents have occurred. There seems to have been a wholesale slaughter of rabbits, and the majority of hunters have been able to bag enough game to supply themselves and their friends. The number of birds killed has been comparatively small. It is barely possible that the hunting season may be passed over without any serious accidents, but it is a good thing to remind the hunter that the least carelessness on his part while carrying his gun in the woods and climbing over fences may result seriously.

A "BIG" FAMILY

Utica, O., Nov. 26.—Amos Belt, now an oil well tool manufacturer of Akron, has been visiting old acquaintances here the past few days. He was born June, 1870, is 6 feet, 2 3/4 inches tall and weighs 211 pounds. Belt is a native of Lake Fork, Burlington township, this county, and is one of three boys born in that community, who, it is claimed, were the largest male children ever born in Licking county. The others are John Williams, aged 49, weight 216, height 6 feet 6 inches, and Budd Edman, aged 40, weight 200, height 6 feet, 4 inches. Dr. Garrison, who was present when each of these bouncers were ushered into the world, has lived to see the trio develop into stout, rugged men.
